

THE DAILY BULLETIN.

MONDAY EVENING, MARCH 3, 1884.

ROSSER & MCCARTHY,
Publishers and Proprietors.
TO WHOM ADDRESS ALL COMMUNICATIONS

A NOT ONE took it in his head
That he would exercise his side,
He took his side into the road,
And, today, nuzzled his side,
"What fun was my side to slide!"
And as he laughed, before he knewed,
He found that sliding side he slide,
Upon that slab where he was laid
They carved this line: "The boy was slide."

Spring is due on the 20th of March.

The masquerade ball at Amazon Hall, postponed on account of high water, has again been postponed until further notice.

SPRING is coming, and the birds,
With music in their throats,
And when they come they'll have to bring
Their winter overcoats.

Col. J. M. STOCKTON, real estate agent, this morning sold Mr. Littleton Hill's residence on Limestone street to Mr. R. A. Carr for \$3,200.

NICK ROBERTS' Humpty Dumpty Truck will appear at the opera house, Saturday evening, April 5th. It is the oldest and the best company in the country.

MR. JERRY MCCARTHY has sold his residence to Mr. James Smith, Sr., for \$800, and has bought of Mr. Geo. B. Thomas a residence on Third street for which he paid \$1,300.

As act to prohibit the sale of liquors at Mayfield, has passed the House. An act to amend the charter of the Mayville Street Railway and Transfer Company has been adopted also.

We regret to hear that Messrs. Varian & Son, of Winchester, Ohio, and formerly of this city, have made an assignment for the benefit of their creditors. We trust their embarrassment is only temporary.

It is claimed that since the flood overflowed property has depreciated in value while in price. If this true it is a fact the City Assessor should keep in mind when he makes the assessment for taxation.

MR. ROBERT L. NELSON, one of the oldest citizens of the County, died at his residence near Washington, Sunday night at ten o'clock. The funeral will take place from the residence to-morrow afternoon at one o'clock. The remains will be interred in the family burial ground on the farm of Mrs. E. P. Lee, in this County.

Says the Sunday Morning Call: A shrewd and successful Cincinnati says that if Mayville wants to get back what she loses by river floods, let her "utilize her splendid grades, and develop a local river traffic." No other town under the sun, with a rich country at its back and communicating by rail with the interior, would blockade her front with coal flats and let such river facilities go unimproved.

Simmons' Medicated Well Water. This valuable medicinal water, which is now largely in use in this neighborhood and elsewhere, is thus spoken of by Dr. Dawson, the distinguished physician, of Cincinnati:

"I regard the water as very fine for table use and I intend to recommend it to some of my patients. It would benefit old persons who have irritability of the bladder, in fact persons of any age with disease of this organ can use it with advantage."
February 27, 1884. W. W. Dawson, Cincinnati, O.

Japanese Tea Party.
The ladies of the First Presbyterian Church will give a Japanese tea party at the residence of Mr. Robert A. Cochran to-morrow, Tuesday evening. Each guest will be expected to purchase a cup and saucer for 25 cents, and this entitles them to a lunch at any one of the three tables. The cup and saucer is to be retained by the purchaser. A large line of Japanese articles will be offered for sale. A sample of the goods may be seen in the window of J. C. Peacor & Co.'s drug store. The congregation and friends are cordially invited to attend.

PERSONALS.
Mr. John H. Hall will leave for Texas this week.
Col. Robert Baldwin is visiting friends at Cleveland.
Mr. Emmet Boulton, of Columbia, Mo., is visiting Mrs. Julia Pickett.
Mr. Oscar Raymond, of Butler, Mo., is visiting his mother at Mayfield.

Mr. C. T. Kneerum, who has been sick for several weeks, we are pleased to see, is out again.
Miss Ada Coons, daughter of Judge W. P. Coons, is visiting the family of Col. Charles Duncan, at Falmouth, Ky.
Mr. Albert Greenwood, who is now at Leadville, Colorado, writes very encouragingly of his prospects to his friends in this city. He has been engaged in mining for the past four years.

Is it Fair!
Ed. Bulletin: I have observed, in one of our local papers, another call for the establishment of a female school in this city. I have seen also, in your own excellent paper, several articles in advocacy of the same scheme. Now, will you permit a disinterested observer to ask who it is that want this school and what is the public necessity that demands it? I have been a resident of this city for twenty-five years and I have frequently had occasion to remark the superiority of Mayville schools to any that I have known elsewhere, and the best proof of their comparative efficiency is observable in the manners, conversation and accomplishments of their numerous graduates. I need merely call your attention to the fact that one well known lady has lately been known in connection with a corps of competent lady assistants, the high reputation of the Baptist Institute, which for twenty-five years has been famous throughout Northern Kentucky. That her graduates are recognized wherever known, as ladies of the highest refinement and intelligence, and many of them have been successful and distinguished teachers themselves. No need I advert to the fact that the Sisters of the Visitation have built an institution, which has not only been liberally patronized at home by oldest and most cultivated families in the city and county, but is regarded abroad as a unique and valuable feature of our social life. Now if unassisted enterprise voluntarily assumes the burden and risk of building up magnificent institutions for the benefit of our community, ought we to encourage a movement which says in effect that nothing useful and satisfactory has been done for the education of our girls? Is it business like? Is it politic? Is it just? Send your daughters abroad if you will, but it seems to me "the risk" would be less to patronize home schools. As least do not attempt to break them down by offering a bonus to an experimental scheme."

Not on the Bills.
Cincinnati Enquirer.
Yesterday, during the second act of "Truth," at the people's Theatre, during the desolate poverty scene between "Stephen May" and his wife, "Edith," where they are represented as starving, the husband drunk, and the baby dying, the electric chairs became so enthusiastic as to fold all around him, yelled out "It's a d-d shame," and pulling out a hand-kerchief, and up on the stage, saying: "Take this and get a doctor for the child at once." It is needless to say that when reminded of where he was he begged not to have his name used. Manager Fenness requests us to announce that the company are stopping at the Palace Hotel, and in no immediate danger of starving.

Disease, propensity and plunging brings mankind numberless ailments; foremost among them are nervousness, nervous debility, and unnatural weakness of digestive organs. Allen's Brain Food successfully overcomes these troubles and restores the sufferer to his former vigor. \$1 at druggists, or by mail from J. H. Allen, 315, First Avenue, New York City.

If your children are choked up like they had a bad cold, with a dry hacking cough, restless at night, peevish during the day, their appetite irregular and their bowels disordered, give them a few sticks of Wm. Allen's Brain Food, and you will be gratified at the return of health and sunshine. It never fails. Ask your physician and he will endorse the efficiency of the combination; and the children never object to taking it.

The Entrance to the Catacombs is not more forbidding than a month's disfigurement of teeth. This disfigurement, in most instances, the consequence of a want of attention to them in youth, but is happily preventable, with Saxonol, as a stump speaker once urged his auditors to vote, "early and often." This staple article is a thoroughly reliable means of rendering the teeth ornamental and serviceable. The press and medical profession endorse it.

Of Use Not Beyond Help.

D. M. H. Hildreth, Kenosha, Ill., advises us a remarkable cure of consumption. He says: "A neighbor's wife was attacked with violent lung diseases, and pronounced beyond help from quick consumption. As a last resort the family was persuaded to try Dr. Wm. Hall's Balsam for the lungs. To the astonishment of all, by the time she had used one-half dozen bottles, she was about the house doing her own work."

To the Trade.
The trade and public generally are informed that we have in stock a large supply of doors, sash, blinds and other manufactured work, together with all grades of lumber that were in no way injured by the flood, which we are prepared to furnish promptly and at reasonable prices. Orders for saved lumber solicited. Our friends who have left their accounts unsettled will favor us greatly by arranging the same as speedily as possible, as we are at present much in need of the money due us. Respectfully,
feb25w COLLINS, RUDY & Co.
